The screenshot displays the FileMaker Server Admin Console interface. The main window is titled "FileMaker Server Overview" and shows a "Server Status Information" section with a red error icon and the message: "An error was encountered communicating with the server." Below this, there are three server components listed: "Web Server" (PHP ON), "Web Publishing Engine" (IWP ON, XML ON, XSLT ON), and "Database Server" (ODBC/JDBC ON). A "Server Information" table is also visible at the bottom.
